## Preferred Role:

-Team Leader / Project Manager

-POM Question Box:

Create a question box in the classrooms/wellness centres that relates to POM - students can post questions that they want us to focus on that can create our weekly focus.

## Speech:

Why should you elect me as the team leader for the POM Question Box project?

I believe that one of the most important factors that contribute to a successful venture isn't the leader but rather the team behind it. I want to ensure that we are able to combine the wide skill set we have among our different team members and effectively utilize it. It is vital that as a team we keep an open mind, so that every individual has a chance to contribute and voice their ideas without fear of judgement. An open and free space is the perfect breeding ground for creative and innovative ideas.

Creativity and ideas are all great, but without strategic planning, they are of no value to advancing a project. I hope to use my strength and yours in organization to help weave our ideas together. I am a perfectionist, and while that can sometimes be a little irritating, in the end you can be rest assured that I will try my best to get the job done perfectly.

As a leader I hope to share my passion with all of you for this project, so that we are able to mould a clear vision. After all, "Without vision, [we] have no direction" and "without direction, [we] have no purpose."<sup>1</sup> Let me help bring that purpose to our project.

Thank you.
