Methods to Start-Up

Dragon Ventures: Ideation

Food Industry

Existing Products

Hai Di Lao Hot Pot

Baby Food

A service that delivers personalised, fresh, organic meals to the doorsteps of homes. Targeted at new parents.

Beauty

Skincare

An app aimed at teenagers which provides rating and recommendations (based on skin-type) for different skin products.

Technological Industry

A series of chips that you could attach to items that you frequently misplace. An app on your phone could use bluetooth/something else to detect the location of these items through the chip.

Educational Services Industry

A platform aimed at high school students (looking at colleges) where they can easily view different colleges (and important information about them made simple) for different areas of interest.

A platform where student can practice their skills in speaking a foreign language with someone who is fluent in that language.

A platform where students can submit their practice SAT essays for marking and receive feedback.
