PERSONAL STATEMENT

A renaissance man and hobbyist in character but concerned and worried about the environment. Currently, engrossed in the field of architecture and design with the aspiration of doing meaningful impact on both the environment and humans while still enjoying skateboarding, football, design and playing music among other interests and hobbies. Interested in the prospect of a gap year with the intent of taking a break and learning to become independent.

Dynamic, but organised and focused allowing productive work to be done without compromising quality. Committed learner and quite comfortable in new experiences.
